

Mgmt 8101 Research Design Proposal Evaluation Form (3)

AUTHOR: _____ EVALUATOR: _____

Please evaluate each component of this report by using this five-point scale:

- 1 = not addressed or evident in the report
- 2 = attempt made but some errors occurred in the analysis/answer.
- 3 = attempt made but the result needs more work, elaboration, or refinement.
- 4 = attempt made with good result; issue accomplished; no further work needed.
- 5 = attempt made with excellent result; issue accomplished with distinction.

- 1. The problem statement is situated, grounded, diagnosed, and draws a clear inference. _____
- 2. The research question is analytical and permits more than one plausible answer. _____
- 3. The proposition is clearly stated, examines alternatives, and is supported with an argument. _____
- 4. Definitions of concepts, constructs, and variables are clear and reflect construct validity. _____
- 5. The hypotheses are consistent operational statements of the proposition (if applicable) _____
- 6. The research design clearly spells out: _____
 - a. theoretical unit of analysis and unit of observation.
 - b. case/survey/experimental design for variance or process theory.
 - c. sample or replication logic and sample selection.
 - d. definitions and measurement procedures for variables or events.
 - e. threats to internal, statistical, external, & construct validities.
